

Time to set up SHOP!!!

Directions: Using tool catalogs, magazines (2000 or newer), or the Internet, research the following tools and machinery. These tools will be the bare minimum in being able to produce furniture of cabinetry. **For each tool you are to list two brands and then make your choice as to which one you would purchase. (Circle the one you would buy.)** You have a budget of **\$10,000.00**. **Try to spend all of your money.** Remember a cheap tool is often an inferior tool and you may have to buy another to replace it soon.

You can:

- **Only buy 4 tools from the same store.**
- **Only use same BRAND 4 times.**

Machine / Tool	Brand & Model Number	Who is Selling it?	What's it Cost?
